

The Weather APP

Sibongenhle Mkhabela
ST10456491

First Page

- Sign in page/Sign up page
- Use Name (Surname is optional)
- Use Student Number (ST...)
- Will sign you in and take take you to the next page

Second page

On the second you will find the day you looking for

The second page is the quickest one

Last Page

- The last page will give you results
- It will show you the day you looking for
- It will preview the Min condition
- It will preview the Max condition
- And lastly will preview if the day is hot or cold
- It will also show you the week for the day you picked
- The app will preview the whole week's weather but the day you also picked will be there

How the App works

- The App is used to students to check the weather
- You will need a student number to be able to use the app,that's why it want the user to put in their ST number which is the student number.
- Once you done checking the weather of the day you picked, you are given a “back” button and it will refresh the app and take you back to the second page.
